

## **New Gazebo!!**

You may have noticed the work being done on our new Gazebo on the South side of our building. How exciting! The Gazebo is made possible through a shade structure grant provided by the **American Academy of Dermatology** to promote sun safety. **Mrs. Hayter** was responsible for writing the grant. Thank you, Mrs. Hayter! We would like to thank **Dave Montoya**, the **Career Center** and **Dr. Richard E. Stiefler** for sponsoring us in this process. More information will be in our May Newsletter.
